## **Examiner's Statement of Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

As per claim 1, 4 and 7, the closet prior art by Kawasaki (US 6,246,414) or Sutherland )US 3,889,107) do not explicitly disclose "sorting the plurality of polygons into polygons of a first color part and polygons of a second color part along a boundary line between said first and second color parts, according to the direction of a light source and normal lines of the plurality of polygons; dividing polygons intersecting the boundary line along the boundary line".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As per claims 3, 6 and 9, the closest prior art by Kawasaki and Gelb do not disclose "the intersectional position of a side line of a polygon intersecting the boundary line is acquired from a proportional relation with the inner product value of two apexes of the side line of the polygon intersecting the boundary lines when the inner product value at the intersectional position is set "0""in sorting polygons.
